

How the process works

PARTNER ONBOARDING · INTER-AGENCY COOPERATION

Access to the confidential documentation of the property follows five simple, secure steps. Here is what happens at each stage, from registration to the Data Room.

- 1 Registration**
Create your access: your details, a valid ID document and acknowledgement of the privacy notice. The property of interest is linked automatically.
- 2 Contact verification**
Confirm your email and phone with a one-time code, so we know we can reach you.
- 3 Approval**
Our staff verifies your identity and credentials (KYC / anti-money-laundering) and enables you to sign. You receive an email when active.
- 4 Signing the Framework Agreement**
You receive a one-time code (OTP) on WhatsApp and sign digitally. A signed PDF copy is always downloadable.
- 5 Data Room**
Access the property documentation (energy certificate, cadastral data, operational summary) and the Media Kit with images, video and brochures.
